SONG FOR A SABBATH MORNING. BY THOMAS BUCHANAN REED. Arise ye nations, with rejoicing rise, And tell your gladness to the listening skies; Come out forgetful of the week's turmoil, From halls of mirth and iron gates of toil; Come forth, come forth, and let your joy

Till one loud pen hails the day of peace. Sing, trembling age, ye youths and maidens, sing ; Ring, ye sweet chimes, from every belfry,

Pour the grand anthem till it soars and swells, And Heaven seems full of great celestial

Behold the Morn from orient chambers glide, With shining footsteps, like a radiant bride; The gladdened brooks proclaim her on the hills.

And every grove with choral welcome thrills. Rise, ye sweet maidens, strew her path with

With sacred_lilies from your virgin bowers; Go, youths, and meet her with your olive boughs,

Go, age, and greet her with your holiest vows ; See where she comes, her hands upon her

breast. The sainted Sabbath comes, smiling the world to rest.

CORN CULTURE.

IAt the last Fair of the Susquehanne County Agricultural Society, the premium of \$5 was awarded to Rodney Jewett, of Brooklyn, for the best acre of Indian corn, having nearly 1191 bushels l

Gentlemen of this society-In presenting my claim before you again for the premium on corn, it is with pleasure that I inform you that by the bountiful bestowments of a gracious Providence my expectations for my labors have been more than realized. Last year I selected a portion of my field to compete for the premium, and the yield was at the rate of 216 bushels of ears per acre. This year I have selected another part of the same field, containing one acre and one perch, from which I have harvested 2394 bushels of ears of the white flint corn. Last year I manured this piece heavily from the barnyard, spread and turned under with the sward, then harrowed and planted with corn, cultivated it with the harrow and hoe, did not break up the sward in the process. This spring I gave it a dressing of horse stable manure well rotted, which I spread upon the land before ploughing, about 20 cart loads to the acre : ploughed it under the last week in April, harrowed the ground the second week in May. ridged it in high ridges (being careful to move all the ground under the ridge with the plough in the process, throwing the ridges about 5 to the rod) planted across them at about the same distance (cutting the ridge down with the hoe so as to lay the corn as low as if the ground had all been harrowed level.) Soaked the corn 12 hours before planting, in a strong solution of copperas and vitriol. After the corn had been up a few days I gave it a dressing of ashes, plaster and lime, with some bone burned and pulverized. As soon as it was large enough harrowed (crossing the ridges) and hoed, hilling but little, which public if judged best to serve the cause of humanijeft the surface nearly even. About a week

hoed it the last week in June, elevating the hills considerable above the spaces between them. Sowed plaster on, broadcast, one bushel to the acre the first week in July. Cut it up and put it in shock the last week in September, 25 hills to the shock. Finished harvesting it the 16th inst. I am firmly of the belief that 160 bushels of shelled corn may be raised from the acre which is one bushel to the square perch, from these facts, that corn will grow and ear well at three feet distant between hills each way, which would give 304 hills to the perch, five ears to the hill would be 151 ears. Well 120 of my full grown ears will make a bushel of shelled corn. It can be easily tried that two ears will exceed a pint. It is not unreasonable to calculate as much as 9 of the lar-

after the first hoeing I went through it put-

ting on the same composition as before; went

through the corn with plough each way and

bushels to the acre. The above, gentlemen, is very respectfully submitted for your consideration. RODNEY JEWITT.

Yours, R Brooklyn, Oct. 18, 1847.

Some Curious Disclosures are now being made by publications from Louis Philippe's private portfolios found at the Tuileries. A long letter relating to the Spanish marriage has been republished in the London Times, and although it was written by the ex-King to his daughter, the Queen of the Belgians part of the language is of so improper a description for the public eye, that the Standard and several other papers have not given the passages in English.

An American in Paris, writing to the New York Tribune, says:

Philadelphia, 10 mo., 13th, 1846
To T. B. Peterson,—Having been requested to give my opinion on the merits of M'ALLIS TER'S SALVE, I am willing to enumerate some of the benefits which I have experienced in the use

In the spring of 1845, I had an attack of Erysipelas in my face which became very painful, and extended into one of my eyes, being attended with fever, my distress was great and I began to be fear

ful of losing my eye.

Although not much of a believer in what is ommonly called quack medicines, I purchased a box and made an application to my face. To my surprise the pain soon absted, and in a week's time was entirely cured, and I firmly believe that it was the salve, under Providence that cured me. From that time to the present, I have used the article as occasion required, and in every case where I have used it, I have found a decided benefit. At one time, on going to bed at night, my throat was so sore that I swallowed with difficulty, but by an application of the salve I was relieved before

I have used it in case of bures, bruises, sprains, and firsh cuts, all with the happiest effects, and one case of poisoning by a wild vine in the woods, has been dried up and cured by a few ap-plications. From my own experience, I would strongly recommend it to all, as a chesp, convenient, family

I have become so partial to it, that I expect to keep it constantly in my family. Though not ambitious to appear in print, yet I cannot refuse to have this communication made

Respectfully thine, WM ADAMS, No. 26, Old York Road. CAUTION .- No Ointment will be genuine inless the names of James M'Allister, or James M'Allister & Co., ore written with a pen on every label.

SIX YEARS AGO

FINHE children began to cry for Sherman's Lozenges. The noise was not as loud at that time, but it has kept increasing ever since, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathises with the little sufferers, and very much re ere s that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible

WORM LOZENGES, he has entered into arrangements for enlarging his Manufactory, by means of which he thinks he will be able to supply the demand. And the same pains and care will be taken, that these celebrated Lozenges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozen ges, that they would supersede the use of every other vermifuge, as the Lozenge is very pleasant to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties in connexion with the f-ct that they are sold for 25 cents per box, thus placing them in the reach of the poorest man in place of every other vermifuge ever offered, but at o rendered them popular to the community.

Dr. Sherman's COUGH LOZENGES continue to cure Coughs, Gilds, Consumption, Asthma, shortness and difficulty of Breathing, and other disea es of the Lungs, with the same facility they did on their first introduction, and the propie have now become persuaded by actual experience, only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough L-zenges. which are very convenient to carry in the pocket. and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his business. So great is the celebrity of the Lezenges, that thousands of persons

who have used them, and become acquainted with their effects, will never be without them. POOR MAN'S PLASTER has cured more cases of Rhoumatism, Paix in the Back, Side and Chest, Lumbago and Weakness, than any application that has ever been made. As the celebrity of the Plaster has increased, hundreds of unprincipled rascals have attempted to counterfeit it, and palm it off upon the community as the genuine. Theware of Deception. PUMPS! PUMPS!!

Improved Hydraulic Pumps,

For Wells, Rolling Mills, Furnaces, or other Purposes, or other public that he is now prepared to supply or-ders to any extent for his Patent Double action Suction and Force Pumps. These pumps are made of cast iron, and the water is sucked or for-ced through lead pipe. For simplicity of construction and durability of action, they are rastly superior to any now in use. They have many advantages over the common pump, among which are

the following: They are so constructed that mischievous persons cannot spoil their action by introducing nails or spikes or any other substances among the valves as is often done with other pumps, thereby render-ing them uscless till overhauled. They are war-ranted to be perfectly secure from frost. They are so arranged as to afford ample protection against Fire about the premises on which they are erected, by simply stacking a piece of hose, thro' which they will force water to any part of, or over, a three story house. They are particularly adapted for very deep wells, as the leverage can be so regulated that a child of six years old cun with th greatest case draw water with them from the deepest wells. The objection so justly urged by many, that water is spouled by standing in pump logs, is entirely obvisted in this pump, and fresh water can always be as surely obtained as when drawn with a bucket. In situations where it is necessa ry to raise or force large quantities of water to great distances for supplying boilers in mils, furnaces, &c., these pumps are invaluable, as they can be made of any size, and capable of throwing from 15 to 1000 gallons per minute.

And to crown all, they can be sold as cheap as the cheapest.

The subscriber has spent the last year in axperimenting upon and perfecting his pumps, and now brings them before the public with the fullest confidence that they will be found to answer his description. FROM IMPURITIES OF THE BLOOD, AND OB. STRUCTIONS IN THE ORGANS OF DI-Experience has proved that nearly every Dis

ease originates from Impurities of the Blood or de-rangements of the Digestive Organs; and to secure Health, we must remove those obstructions or re-store the Blood to its natural state.

The aversion to taking medicine is most effectually removed by CLICKNER'S VEGETABLE PUR-QATIVE PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TASTE OF MEDICINE, But are as easily swallowed as bits of candy Moreover they neither nausente or gripe in the slightest degree, but operate equally on all the dis-eased parts of the system, instead of confining themselves to, and racking any particular region. operate on that particular organ, and, by cleansing remove all imputities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they STRIKE AT THE ROOT OF DISEASE, Temove all Impure Humors from the body; open the pores externally and internally; separate all foreign and obroxious particles from the chyle, so that the blood may be thoroughly pure-thus securing a free and healthy action to the Heart, Lungs and Liver; and thereby they RESTORE HEALTH E-VEN WHEN ALL OTHER MEANS HAVE FAILED.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give iniversal satis action.

DR. LE ROYS Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system.

LONDON, July 7, 1846.

R. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparills and Wild Cherry, so united that they act together; the one, through its admixture with other sub-taxees, purifying and purging, while the other is strengthe ing the system. Thus those pills are at the same time tonic and opening; a desideratum long and cagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no lebilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the slood; they not only purify without weakening it. but they remove all to xious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no ebilitation, so there is no nausea or sickness attending the operations of this most excellent of me-dicines, which never strains or tortures the digesive functions, but causes them to work in a pertive functions, but causes them to work in a per-fectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsa-parilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operahealth is the certain result of their united opera-

DR. SWEETSER'S

AEED AT AG HIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Subste, Arsenic, Chloride of Gold, or any delete

The principle upon which this Medicine acts, i by assisting and harmonising with nature; is drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gestric juice of the stomach, it assists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN, Scurvy, Scorbuic Affections, Tomors, Scrofula or Kings' Evi , White Swellings, Erysipelas, Ulcers. Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR INDIGESTION. Rejection of food, Nausea, Vemitings, Nervous af-fections, Billious complaints, Head ache, Paleness Female Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure; but if obstinate. or attended with griping, flying pains, the dose should be increased, and the cure will soon be ef fected. Let not the patients frighten themselves with the idea that they are too weak to take much medicine; but bear in mind that this mildly opera-Thus, if the Liver be affected, one ingredient will ting med cine put not weakness into the frame, but most certainly draws weakness out, leaves strength it of an Excess of Bile restore it to its natural in its place, and by giving composed sleep at night, state. SCROPULA AND GLANDULAR AFFEC-

TIONS, Scrofula is said to be heriditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of epinion prevails; it suffices us to know that when in a diseased state, they are capable of being jurified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scrofulous persons can never pay too me attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary disease,

In cases of JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high ly extolled; it searches out the very root of the ase, and by removing it from the Blood makes

a cure certain and permanent.

For discusses of the Bladder and Kidneys, Strictures, Gravel. Stone, Piles, Fistula, Urinary Obstructions and Extreme Costiveness Dr. SWEET. SER'S PANCEA is the best remedy ever tred; it removes all those acrimonious humors from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS. Impurities of the Blood, Mercurial Taint, Weak ness of the Spine Flow of Blood to the Head Gid diness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, the nationts cannot be too often reminded that larger doses and perseverance will effect a cure. In Chills and Fevers, Bilious Fevers, Affections f the Eyes and Ears, Spongy and Bleeding

Gums Branchet's and recent Coughs and Colds, Dr. SWEETSER'S PANACEA will be found perfectly sure and certain in its effects.

GRAVEL AND URINARY COMPLAINTS There complaints are generally attended with the most fatal consequences, and are seldem or ne-ver cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and torcure. The cause of these complains are the same as all others, the dross of the blood becames encrusted on the finest narrow passages, whence are secretions and stoppages of urine. You will find the most powerful dureties of no use, as they only increase the quantity of urine and do not and strengthen the parts. By parifying the blood with Dr. SWEETSER'S PANACEA, you re move the cause of the disease, consequently it can-not exist any longer, after sufficient perseverance in its use has deprived the blood and body of al

acrimonious humors and incrustation. DISEASES OF THE LUNGS-CONSUMPTION This is a very prevalent and fatal disease; it results mostly from neglected coughs, colds and bronchitis, also from improper treatment in many of er cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated diseases where the cause, instead of having been thoroughly removed from the blood and body, have only been pullisted or removed from one part to break out in another. By divesting your bodies of all foul humors, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain and permanent. Recollect, while there is acrimo nious humors floating in the circulation, it is as not to settle on the lungs as any other part of the body ;

this is the reason that consumption is so prevalent

BILES, SORES AND ULCERS. Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and pro-duce most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly utcerating and corroding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and bo dy is in, for it is a warning that the blood is foul Had this same actimony selected the lungs instead of the surface of your body for its seat, consumption of the lungs would have been the consequ Delay not then, to purify and cleanse with Dr.

Sweetser's Panacea. — SPINE DISEASE.

Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, rup-tures, falling of the bowels and wom disease, will find a speedy oure in Dr. SIVEETSER'S PA-NACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a ined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF

THE WINDPIPE. These diseases proceed from the seriosity or corrupt humors of the blood, having settled itself on the throat and lungs, and stopped them up, so tha they cannot draw sufficient air in for respiration. Dr. SWEETSER'S PANACEA will give imme diate relief, and to make the cure perfect and cer tain, it should be continued some time after, to

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES

Find a safe and speedy cure in Dr. SWEET. SER'S PANACEA. It cures by searching every blood ves el and artery, and driving out all imrities and foul humors secumulated therein, which is the cause of rh-umatism, gout and swellings of the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties be-come fully known, the use of all mineral poison will be consigned to 'the tomb of all the Capulets,' and only be thought of as a by-gone custom of the darker ages. Dr. Sweetser's Panacea is also a sure cure for dyspepsia, piles, costiveness, vertigo, headache, pain in the breast and liver complaint.

FEVER AND AGUE. Fever is always caused by a disorderly move-ment of the blood, struggling to fice itself of some-thing that encumbers it; in fact, every kind of fe-ver is nothing more than a struggle between the blood and corrupt humors, and as soon as the car-

rupt humors are expelled, you have no more fetbr. When a patient with fever submits to be bled, or have his blood poisoned with mercury, it weakens process, it always leaves him subject to distressing chills, when 9 times out of 10 he resorts to ague pills, powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c, are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out sgain with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers,

PILES. In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthe ing the digestive organs, improves every part of the

entire body FLATULENCY AND WIND. These diseases are caused by the stomach and bowels being choked up with viscid alimy matter, the air which enters them cannot e-cape until forced by some contraction of the stomach to expel it! hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weakness from the body and leaves

all heal by within. — MARRIED LADIES Will find Dr. SWETSER'S PANACEA a medione purely adepted to their use. Most ladies during the period of pregnancy are afflicted with piles, Dr. Sweetser's Panacea, by regulating the bowels, will entirely obviate this, and its purifying proper-ties on the blood and fluids, insures to them heal-thy off-pring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants. For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening

power, it stimulates and strengthens the womb, weakness of which is the cause of failure to have offspring. NERVOUS DISEASES. Under this head may be classed Palpitation of the Heart, Tie Doloreaux or Facenche, Neuralgia, Indigestion, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the sharp, biting, acrimonious humors irritating the nerves; the nerves receive the morbid impression from the sto-mach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid imprespart. A few doses of Dr. SWEET'SER'S PA-NACEA will soon assure the patient that he has A few doses of Dr. SWEETSER'S PA-

the cure in his possession. ERYSIPELAS, on ST. ANTHONY'S FIRE. This is an inflammatory disorder, a w ys at ended with more or less pain. It proceeds from the feul, acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surface are worse than uscless, as they only t ad to throw the disease in some other part, and perhaps rause death. Bleeding is likewise improper. To cure the disease you must get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. Sweetser's Panacea does not improve. To take it when you are we'l is to keep

well; and when sick to become well, DR. SWEETSER'S PANACEA, beincomsed only of a vegetable matter, or medicar nerbe, and warranted, on oath, as containing not one particle of mercurial, mineral, or chimical substances, is found to be perfectly harmless to the most tender age, or the weakest frame, under any stage of human soflering; the most pleasant and benign in ite overation that was ever off red to the word; and t the same time the most certain in sear hing out the root of any complaint, however deep, and of
